PRINT AT 100% / ACTUAL SIZE. Do not use "Fit to page" or "Shrink to fit."

1. Check your printout: the line below must measure exactly 2 inches (50.8 mm) with a ruler. If it does not, reprint at 100%.
2. Set a ring that fits the finger you are sizing on the circles. The **INSIDE** edge of the ring should line up with the circle line.
3. Use the circle that matches. If the ring falls between two circles, use the half size.

PAPER RING STRIP

Idunna's Tears | idunnastears.com

PRINT AT 100% / ACTUAL SIZE. Do not use "Fit to page" or "Shrink to fit."

1. Check your printout: the line below must measure exactly 2 inches (50.8 mm) with a ruler. If it does not, reprint at 100%.
2. Cut out a strip along the dashed line. Cut the slit in the head (the solid line) with a craft knife or small scissors.
3. Wrap the strip around the base of the finger with the numbers facing out. Bring the narrow tail around and tuck it into the slit from the front, so the tail passes behind the head.
4. Pull snug, not tight. Read the number right at the slit, where the tail goes in. Short lines between numbers are half sizes.
